La question du Mariout

Nous ayons reproduit dernièrement un entre-filet publié dans le dernier "Bullatin de l'Union Syndinaler des Agricultenra" et on li était question d'un arrêt que le Cour d'Appel Mixe annait rendu récemment, consornant les droits des bédonins sur des terrains qu'ils auraient amélionée.

Or, après de minutiennes recherches, faites sur la jurisprudence de la Cour de cette année, il researt que pareil arrêt n'existe point. Il semili intéressant de avoir comment ce campa, qui a fait la tour dé la presse égyptienne, a prin

OUR PARIS LETTER.

(Fuon oun Conkesconpunt).

Faria, May 15.

It is pleasant to be able to note the fact that she anxiety which has undenishly prevailed in the local prevailed in the local prevailed in the local prevailed in the local few dark in magast to the question of neutrality in indo China has given place (re's perceptible scelling of celling. The fact last, in spite of that received in the local prevailed by the local prevailed by the properties of the local properties of the local properties of the local properties of the local straight up to what we like the luftle of Rodgiertemay's a stilleships sink believe the horizon, to the immense relief of the hulls of Rodgiertemay's active like hulls of Rodgiertemay's active labelier to be considered in abouting very local great the luftle of Rodgiertemay's active local preturbed Premis Oficials at Saigne. Not that one feels justified in abouting very local great confiderable in the local preturbed Premis Oficials at Saigne. Not that one feels justified in abouting very local part of the local part of the word. Reventile and the local present the way of the word. Reventile and the local present the Years of the Normality on this great and we would not the report of the local part of the word. Reventile and the report of the local part of the loca assett that we are out of the wood. Reverting, less, it is, by files sime, at least-ortain that the French are thoroughly on their guard, and that the Russians, are aware that there is not much more to be hoped for from the benevo-lence of French neutrality.

Here in Paris we never allow an affair of fareign polition to compy one minds for any great length of time, especially when the matter in question concerns one as well as the property of the thes, received the Kaiser without enthusiasm, but with gilent civility. Even now, after thirty-five years, the wounds are hardly healed, and though all can daits in honoring the brave neu who fell, bitter memories are revived, and the annexation of the provinces remains

as galling as ever.

The point which has chiefly impressed Pracchane jn the Gravelotte commemoration in the silence which was maintained by the German Emparter. The fact that the Kaiser might emulate his recent speeches on Japan and Ransig gave rise to a certain amount of percentage of the second speeches on Japan and Ransig gave rise to a certain amount of percentage of the second speeches on Japan and Ransig gave rise to a certain amount of the result of the second speeches o Reasines at Makeles to their drunkenness and incapacity, public opinion would most certainly have been seriously inflamed. That he would have been seriously inflamed. That he would inche a speech was never doubted, and for a day or two before the ceremony argument ma-lify as to whether the utternoor would be warfilte or passed!
